

The technical drawings show two variants of forced air units, labeled A-1 and A-2.

- A-1 Variant:** This unit features a central body (1.1) with four circular fans. It has a total height of 1940 mm and a width of 700 mm. The front panel (1.3) is shown in an open position, revealing the internal components. The side view shows a length of 1000 mm. The unit is equipped with a VZT JEDNOTKA - KUCHYŇ (Kitchen Unit) with a capacity of 6000/6000 m³/hod and a weight of 606 kg.
- A-2 Variant:** This unit is similar to A-1 but has a different internal configuration. It also has a total height of 1980 mm and a width of 700 mm. The front panel (2.4) is shown in an open position. The side view shows a length of 1000 mm. The unit is equipped with a VZT JEDNOTKA - CUKRÁRNA (Candy Making Unit) with a capacity of 3500/3500 m³/hod and a weight of 362 kg.

Both units are shown with their respective dimensions and specifications, including the type of fan used (CIRK. KLAPKA 500x315-servo 0/2 for A-1 and CIRK. KLAPKA 500x250-servo 0/2 for A-2).
